

LITERATURE STAND

Point of display equipment

Manufactured in tough, medium density polyethylene.

Unique stylish look—an attractive way to display brochures, flyers and leaflets.

5 pockets, designed for a full face view of your literature.

Built in lip and retaining rods hold contents securely in place.

Shelves ideally angled for visibility and easy access.

Lightweight, yet well balanced. Optional metal weight available for extra sturdiness (extra cost).

One piece construction, no assembly required.

Technical Information:

Please see below for full dimensions.

Weight (when empty): 9.5kg

Standard Colour: ●

Other colours available (for quantities of 25+ only): ● ● ● ● ●

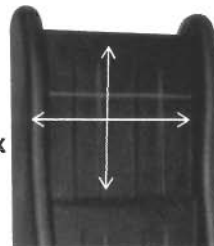

470mm wide

Internal base measures 395 wide x 255 deep.

The recessed base can be drilled and fitted with a metal weight if extra sturdiness is required (extra cost).

Each of the 5 pockets measure 300mm high x 295mm wide.

Integral handles are moulded into the top and bottom of the back of the stand for easy carrying.

1630mm top to bottom

320mm deep at the base.
